## DEFINITION OF BENEFITS

THE FOLLOWING BENEFITS ARE SUBJECT TO THE AGGREGATE ANNUAL LIMIT OF R210 580 PER INSURED PERSON (Limit may be subject to regulatory amendment) (Sub-limits may apply)

### GAP COVER:

The shortfall that arises after your medical aid has processed your account, as a result of the service providers charging above scheme tariff for authorised in-hospital procedures. The benefit pays up to 500% of scheme tariff less the higher of the amount paid by the scheme or the scheme tariff for in-hospital procedures/treatment and certain specified out-of-hospital procedures/treatment. You must belong to a registered South African medical scheme to qualify for Gap Cover.

### PRESCRIBED MINIMUM BENEFITS:

A set of defined benefits, as per the Medical Schemes Act, in terms of which all medical schemes must cover the costs related to the diagnosis, treatment and care of any emergency medical condition; a limited set of 270 medical conditions; and 27 chronic conditions.

### CO-PAYMENT BENEFIT:

A co-payment or deductible is an upfront amount that needs to be paid to the hospital/day clinic/radiologist before undergoing certain procedures, as specified by your Medical Scheme. When you experience a co-payment for a procedure or scan (as specified by your Medical Scheme) you would need to pay for the co-payment up-front and then claim the amount back from your Cura Gap Policy. If your Medical Scheme pays for co-payments from your day-to-day benefits, you may still claim the amount. This benefit includes out-of-hospital MRI/CT scans.

### CASUALTY UNIT BENEFIT:

The cost of emergency medical treatment or a surgical procedure performed in the hospital casualty unit, should such cost not be covered by the Medical Scheme. Emergency Triage Index applies. (Include: Orange and Red triage). This excludes medical appliances such as crutches, braces, wheelchairs, and take-home medication.

“Emergency” means the sudden and unexpected onset of a health condition that requires immediate medical treatment and/or an operation. If the treatment is not available, the emergency could result in weakened bodily functions, serious and lasting damage to organs, limbs or other body parts, or death. The determination of an Emergency will be done through diagnosis (through classification by the attending Medical Practitioner and / or the Casualty Unit) and not on symptoms presented. Emergency Triage Index applies (Orange and red triage).

### SHORTFALL ON CONSUMABLES:

Consumable Medical Supplies short-paid by the Medical Scheme for Treatment received whilst as an In-Patient. Non-chargeable items are not covered. Covers shortfalls on disposable items such as surgical gloves, bandages, and gauze.

### TTO Medication:

TTO medication shortfalls as on hospital account, paid from Scheme Risk

### TRAUMA COUNSELLING:

This benefit covers counselling sessions with a registered counsellor or clinical psychologist that may be required after a serious or traumatic event. Insured must receive counselling within (1) one year of trauma incident.
